EDUCATION

2024 – 2028

Mumbai University | FRCRCE

- Bachelor of Engineering in Electronics and Computer Science (ECS)

CERTIFICATIONS

- C Programming
- Introduction to HTML
- SQL (Basic)
- Python (Basic)
- Introduction to Cybersecurity

SKILLS

- Cybersecurity Fundamentals:**
CIA triad, threats & attacks, basic network security concepts, cyber ethics
- Programming:**
C, C++, Python (basic)
- Embedded & IoT:**
Arduino (sensors, basic circuits)
- Web Basics:**
HTML, LaTeX
- Tools & Practices:**
Problem solving, debugging, documentation

LANGUAGES

- English
- Marathi
- Hindi

PROFILE SUMMARY

Second-year Electronics and Computer Science (ECS) engineering student at Fr. Conceicao Rodrigues College of Engineering (FRCRCE), Mumbai University. Completed Cisco Networking Academy's Introduction to Cybersecurity. Strong interest in information security, networking fundamentals, and hands-on problem solving. Seeking a cybersecurity internship to apply foundational skills in real-world environments.

PROJECTS

• Speed Detection Radar

Arduino based system using ultrasonic sensors to calculate the speed of passing objects in real time.

• Motion Detector Alarm

PIR sensor based alert system that triggers a buzzer when motion is detected practical home security prototype.

• Smart Academic Result Converter

Full stack web tool for Fr. CRCE that converts Mumbai University result Excel sheets into CDM format using Claude AI for column mapping, Supabase for storage, and a built in LLaMA chatbot for live student data queries.

• Password Strength Checker

Real time cybersecurity tool that evaluates password strength and provides feedback built applying knowledge from the Cisco Cybersecurity certification.

• Personal Web Portfolio

[Web | HTML, CSS, JavaScript](#)

A responsive personal portfolio designed to showcase projects, skills, and achievements. Built from scratch with HTML, CSS, and JavaScript with a clean and smooth design.

• Scientific Calculator

[C/C++](#)

Console based calculator handling arithmetic and scientific operations.

• Games - Tic-Tac-Toe & Word Guessing

[C/C++, Python](#)

Two-player Tic-Tac-Toe with win detection (C/C++) and an interactive Word/Letter Guessing Game with hints and scoring (Python).

• Shopping Cart Application

[C/C++](#)

Console based application demonstrating logic flow, OOP, and data handling.

Volunteering Experience:

• Heart and Soul Run — Volunteer

- Managed water stations ensuring hydration support for runners.
- Guided participants and helped maintain safety along the route.
